VIANU

WHO DECIDES WITH YOU?

HR

VIANU makes custom insoles for employees who stand and walk for many hours. You want your teams in housekeeping, kitchen and service to feel that their daily strain is seen. A pilot with 10 employees shows you whether your team wears and values the insole.

WHAT YOU PRESENT TO YOUR MANAGEMENT

BUDGET	10 pairs, EUR 1,200 plus VAT. Employees pay nothing.
EFFORT FOR YOU	A few hours: you define the test group, approach the participants and briefly explain the process.
VOLUNTARY	Participation is voluntary. The insole goes into shoes your team already owns.
REPORT	A report with a survey of the participants, including four questions, so that the effect becomes measurable.
DECISION AFTERWARDS	You decide whether and how to expand. You do not commit to a rollout beforehand.

Next step: Define a suitable pilot group with operations management and prepare the internal communication. Contact: Roderich Körner-Rehn. Get in touch on the VIANU B2B page.
